

U.S.-Denmark Workshop on Renewable Energy July 29-August 23, 2013

The U.S. – Denmark Summer Workshop takes place annually in California and Denmark alternately, with the 2013 edition in Denmark. The four-week workshop starts with one week of online preparation and continues with three weeks of lectures, seminars and field trips to renewable energy sites and facilities in Denmark; providing students with real-world experience of the technological and social aspects of RE implementation at a local level. The faculty is composed of U.S. and Danish professors, as well as, external professionals and researchers with proven experience in their field. Students will work on team-based projects related to renewable energy solutions to specific problems.

Applications Due 3/22/2013
